

Math / Science Family Night

What is it?

It is a fun activity for all ages. Everyone is invited to attend on Thursday, January 26th from 6:00-7:30.

Why should we come?

This is a great opportunity to have fun with your children, and help them learn math and science at the same time. You might learn something too!

How does it work?

Each student will be given a "passport" upon arrival at school. Passports will be given out in the cafeteria.

Parents and children have fun doing activities together. A do-it-yourself math or science project will be set up in every classroom for children to do activities with their parents. The three teachers from the bungalows will have activities set up in the Library. Families are invited to visit every room and try every activity.

Directions for each activity will be posted in each room. Each time a student completes an activity with his/her parent, they get one stamp on their passport. When they get 8 stamps they come to the cafeteria to get a prize. If they want to visit more classes, they can get a new passport, and start again.

Will food be served?

Yes, the PTA will be selling pizza, drinks and baked goods starting at 6:00 p.m.

Support the PTA and feed your children at the same time.

We will be tripling the Pizza order this year, so we won't run out!

Where can we park?

Parking will be available on the yard starting at 6:00 p.m.
